

“ESS” stands for EASY SANITARY SOLUTIONS, and is at the same time the best and most appropriate statement describing our products. Simple, practical and advantageous for installation specialist and end-users, in the very best quality with an attractive and modern design.

As a family owned company located in the Netherlands we have been designing, developing and producing sanitary solutions since 1928. The innovative character of our range of products has grown for generations and thus ESS is often the trendsetter in the sanitary sector. We are the inventors and developers of the EASY DRAIN shower drainage system and have thus triggered a boom for freedom of barriers in private bathrooms.
